

FG p: "in ogni cammino, prima o poi si raggiungerà uno stato a partire dal quale p rimane sempre vera"

Confronto 1

Modello

Albero

$M, s_0 \models \text{FG } p$

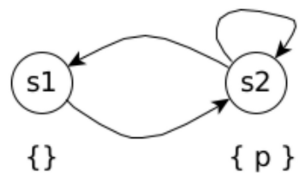

$M, s_0 \not\models \text{AFAG } p$

Faccio dei cicli su  $s_0$   
e poi passo a  $s_1$ .

$M, s_0 \models \text{AFEG } p$  !

→ QUESTO PUÒ' VERE!

Confronto 2

$M, s1 \models AFEG p$        $M, s1 \not\models FG p$
